Dear Michigan Realtors®:

The attached Addendum has been created to help address possible real estate delays as a result of the COVID-19 pandemic. While we recognize that the impact of COVID-19 on the real estate market is changing on a daily basis, this form should be a useful tool to address those instances where a buyer and seller can agree in advance to extensions. As with any contract, please consult with your brokerage legal counsel on the best use of this addendum.

The addendum can be downloaded [here](#).
